

Montjean sur Loire, July 21, 2021

Dear Sir or Madam,

Following the last governmental announcements of July 12th, we inform you that the sanitary pass will be **mandatory** from now on for people **18 years and older** to access the campsite.

At the time of your arrival, a control will be carried out, it will **be valid for all the period of your stay**

**You are not vaccinated against the covid 19? Don't panic ! The health pass is not just about the vaccine.**

**-All you need to do is present a negative result (PCR or antigenic) not older than 48 hours. It will be valid for the duration of your stay. No need to be re-tested during your stay with us!**

The test must be done by a professional (pharmacy, laboratory, nurse...). Self-tests are not valid.

Find out which professionals offer screening on the following link:

<https://www.sante.fr/cf/centres-depistage-covid.html>

You will find below the details of the possibilities of a valid health pass according to the government website.

*The "health pass" consists of the digital presentation (via the TousAntiCovid application) or paper, of a health proof, among the three following ones:*

***1 / Vaccination, provided that people have a complete vaccination schedule, i.e. :***

- 1 week after the 2nd injection for dual injection vaccines (Pfizer, Moderna, AstraZeneca) ;
- 4 weeks after the injection for vaccines with a single injection (Johnson & Johnson);
- 2 weeks after injection for vaccines in people who have had a Covid history (1 shot only).

*Once you have your vaccination certificate, simply scan the QR Code on the right to import it and store it locally, in your phone, thanks to TousAntiCovid Carnet.*

**If the vaccination deadlines are not met, you will need proof of a test less than 48 hours old.**

## ***II / Proof of a negative test less than 48 hours old for the "health pass"***

All RT-PCR and antigenic tests generate a proof as soon as the result is entered by the healthcare professional in SI-DEP, which can be printed directly and is also made available to the patient via an e-mail and an SMS to retrieve it from the SIDEPE portal. On TousAntiCovid, the import of the proof into the application will be done by the patient.

*The time limits in force for the validity of the tests (48 hours) are strict at the time of entry to the event or the boarding (no flexibility to 2 or 3 days).*

## ***III / The result of a positive RT-PCR or antigenic test attesting to the recovery of the Covid-19, at least 11 days old and less than 6 months old:***

Positive tests (RT-PCR or antigenic) older than 2 weeks and less than 6 months indicate a limited risk of reinfection with Covid-19. The process for positive test is the same as for negative tests via SI-DEP (see above).

In conclusion, if you do not already have a health pass following a complete vaccination or a recent infection with covid-19, you will have to do a PCR or antigenic test (by a health professional / proof required, a self-test is not enough) before your arrival at the campsite so that you can fully enjoy your stay.

The European health pass is also suitable for access to the campsite.

As this is a governmental measure, there is no compensation from the cancellation insurance or by the campsite. The test is very quick and is covered by the social security. The places are numerous.

Cancellations for personal reasons are not eligible for reimbursement of your stay.

Once the test or the vaccine is done, you can enjoy your vacations with peace of mind!

Do not hesitate to contact us if you have any questions. We remain at your disposal.

The whole team is very happy to welcome you soon and will do everything possible to ensure that you have an excellent vacation!

We look forward to welcoming you soon in Montjean sur Loire

# FLOWER SAFE +

*Because your comfort and safety are our priority*

## *Our 10 commitments*

- 1 Ensure the strict application of the French government's anti-coronavirus measures.**
- 2 Organise separate, simplified procedures for dealing with arrivals and departures.** Wherever possible, guests will no longer have to go to reception to pick up their keys.
- 3 Implement more stringent health and hygiene protocols** with increased cleaning and disinfection in both our rental units and common areas and enhanced hygiene levels at all points of frequent contact.
- 4 Use modified signage** including floor markings, posters, etc. to ensure that everyone follows social distancing rules.
- 5 Use contactless and remote payment options** wherever possible.
- 6 Provide antiseptic gel and/or liquid soap** in all common areas.
- 7 Provide disinfectant cleaning products** in all our toilet/shower blocks.
- 8 Appoint a coronavirus officer** at each campsite responsible for implementing coronavirus rules and recommendations.
- 9 Ensure clear and open communication** about all our anti-coronavirus measures.
- 10 Appoint a "health and hygiene officer"** at each campsite to ensure the checks set out in Flower's Coronavirus Guide are properly implemented.

COMFORT AND SAFETY,  
*Let Flower look after you!*
